

Bi-Weekly Status Report

CSCE 4905/4925

Date: 10/21/2025

Team Name: FRAS – Group 3

Prepared by: Brendon Stepanek

Accomplishments for the previous 2-week period

Over the last few weeks we've completed:

- Test Plan Development
 - Documentation
 - Test Case Design
- Further Development
 - Finishing some core implementations
 - Small bug fixes
- Conducted UAT

Problems Encountered

We didn't encounter any real problems that we didn't expect. Obviously we had some bugs to fix and some functions weren't working as expected, but nothing that we didn't plan for.

Plans for the upcoming 2-week period

Over the next 2 weeks we'll be fixing any remaining bugs/issues. We'll also begin working on our design abstract as well as the start of our poster design.

Project Plan Reconciliation

At this point in time our project plan still aligns with the current status of our project.
